

SPEECH BY THE QUEEN

Important Session of the British Parliament Opened Today.

DISTRESS OF A NATION

Victoria's Address Makes No Reference to the Defeats in South Africa.

WAR WILL BE PROSECUTED WITH THE GREATEST VIGOR.

Opposition to the War in Parliament Shows a Bold Front—Both Liberals and Tories Not Anxious for the Fall of the Ministry—General Union of All Irish Members is Effected—No Further News From Gen. Buller Received Up to Noon Today.

London, Jan. 30.—[Special Cablegram]—Both houses of parliament assembled today, amid the usual pomp and ceremony. Immense crowds were in attendance.

The Queen's Speech. In both houses of parliament today is couched in the same formal, unemotional terms, in no way reflecting the despairing panic reigning throughout Great Britain. It boldly announces that the war is still continuing, expresses deep sorrow for the loss of valuable lives it has entailed, tribute is paid to the heroism of the men of all ranks and great gratification is expressed at the patriotic feeling of loyalty manifested throughout the Queen's dominions.

Foreign Relations Friendly. No indication whatever is given of the policy in relation to the war, but the colonial troops are singled for special compliment. The speech states that the relation with foreign powers is friendly, announces with satisfaction that a treaty has been concluded with Germany respecting Samoa, to a portion of which treaty the United States has also agreed. A bill for the federation of the Australian colonies is promised and also a measure for coping with the famine in India.

To Meet Large Expenditures. The House of Commons is informed that its attention is demanded to make provision for the large military expenditure incurred, while provision must also be made for completing the efficiency of the navy and improving the coast defenses.

The naval expenditure is for rearming the fleet with new quick firing guns. No domestic legislation of the slightest importance is promised, the government foreseeing that attention will be concentrated on the war and foreign affairs.

Address in Opposition. Lord Edmund Fitzmaurice, brother of the war secretary, Lord Lansdowne, formerly under secretary for foreign affairs in the Gladstone government, moved the following amendment to the address, as the spokesman of the official leaders in opposition, expressing "regret at the want of knowledge, foresight, and judgment displayed by the government in south African affairs since 1895, and in their preparations for war."

Cabinet Crisis Not Likely. This will be supported by Sir Henry Campbell-Bannerman, Sir Vernon Harcourt, John Morley and other liberal leaders in the house of commons, and the debate is expected to last several days. Both liberals and disaffected Tories are hesitating about jeopardizing the existence of the government that parliamentary defeat is thought extremely improbable.

Irish Parliamentary Union. London, Jan. 30.—[Special Cablegram]—A general union of the Irish in parliament was formed today.

Up to noon no further news was received from Gen. Buller. It is believed that some time will elapse before he again records his movements.

Boers Report Victories. Pretoria, Jan. 30.—[Special Cablegram]—Commandant Delany reports to Colesburg, Cape Colony, another repulse of the British on Thursday. A large force of the enemy advanced on the Boer position, but was attacked and forced to retreat with heavy losses. The Boer casualties were two men slightly wounded. Gen. Grobler also reports that he repulsed the British, presumably the same day, with the assistance of Gen. Schoeman. The British in force attempted to surround the Boers, but were driven off. The Boers maintained their position. Their loss was five

wounded. The British loss is said to be severe.

Boer Shell Factory Explodes. Durban, Jan. 30.—[Special Cablegram]—A refugee just arrived states that the shell factory at Johannesburg exploded January 20, and a large number of men were killed and injured. The loss of the factory to the Boers is irreparable.

Additional Casualty List. London, Jan. 20.—[Special Cablegram]—General Buller reports this afternoon an additional list of casualties from Jan. 20 to 26, none of which, however, occurred during the battle of Spion Kop. This shows a total of forty-eight killed, 270 wounded and five missing.

CHAS. HERMANN NOT GUILTY

Jury Found That the Defendant Had Been Selling on Mother's Orders

Yesterday afternoon it took the jury in the case of the City of Janesville vs. Charles Hermann, just ten minutes, to bring in a verdict in favor of the defendant. Mr. Hermann, who is landlord of the American House on East Milwaukee street, was arrested on the charge of selling liquor to minors. The case was tried by a jury of six, consisting of Charles E. Church, J. R. Bleasdale, George C. McLean, John Horn, Thomas Edden and Benjamin Nelson.

IRELAND'S HOPE NEVER SO BRIGHT

Maud Gonne Advocates Physical Force in Securing Freedom For the Green Isle.

New York, Jan. 30.—With the news of a crushing defeat of the English troops under Gen. Buller came Maud Gonne, the "Irish Joan of Arc," yesterday afternoon. The coincidence is mentioned because this young woman, who is one of the most prominent figures in the Irish affairs today, advocates the revival of the physical force doctrine of the Fenians in the effort to obtain the freedom of Ireland, the semidemoralization of the British nation over the Boer victories furnishing the opportunity. "No people," said Miss Gonne, as the steamship La Normandie came up the bay, "ever won liberty without the shedding of blood and great personal sacrifice. Ireland's opportunity was never so bright. It will not do to let the hour of destiny slip. It comes but once in the life of a nation."

"Stories that have reached the states regarding prosperity in Ireland are not true. We are fighting continually, especially against the enlistment of Irishmen in the English army. There are now less than 25,000 Irish soldiers in the service of the queen and to such straits are the recruiting sergeants reduced that they are taking sick men from hospitals. This is a fact. "Ireland's opportunity is present. The sentiment of Ireland today is the sentiment that governed Ireland in the days of '67, before Parnell advised us to 'hold out our hands'. Now there are only 6,000 English soldiers in all Ireland. If we would strike a blow we must strike it soon. England is not in a position to refuse anything."

SIX MEN ADRIFT ON AN ICE FLOE

Badger Fishermen in Peril on the Lake in a Blizzard—Dairymen to Meet at Madison.

Menominee, Wis., Jan. 30.—Six men supposed to be fishermen, who went out from Menominee yesterday afternoon to set nets, were seen on a section of ice which was detached from the main body south of this city by the high southwest wind. Their rescue is a matter of grave doubt. A party in a boat went out to bring them back, but has not yet returned.

Mrs. Caroline Muzzy Dead. Madison, Wis., Jan. 30.—Mrs. Caroline Muzzy, aged ninety-one, is dead at her home in Medina township, Dane county. She came to this state in 1844, and during the succeeding fifty-six years resided on the farm where she died. She leaves eight children, forty-seven grand children, seventy-five great grand children and five great great grand children.

Declines a Reappointment. Marinette, Wis., Jan. 30.—J. A. Van Cleve, member of the board of regents of the State university, has declined a reappointment, on account of increasing business responsibilities. His term expires next week. Mr. Van Cleve has been a member of the board for the past three years.

Dairymen to Meet at Watertown. Watertown, Wis., Jan. 30.—The twenty-eighth annual convention of the Wisconsin Dairymen's association will be held in this city February 13, 14, 15 and 16. The association was organized here twenty-eight years ago by ex Governor W. D. Hoard and a few others interested in the development of the dairy interests of Southern Wisconsin.

Tall Government Chimney. The tallest and largest chimney south of New York is now being constructed for the use of the United States bureau of printing and engraving. When completed it will be 223 feet high.

FILIPINO WAR IS DECLARED ENDED

McKinley Will Issue Proclamation and Amnesty to the Rebels.

MUST LAY DOWN ARMS

President Will Offer a Proclamation Within a Very Few Days.

Uncle Sam Will Forgive All the Insurgents Who Will Give Up Their Arms Within a Certain Time—Those Who Do Not Will be Declared Outlaws and Bandits and Will be Hunted Down Without Mercy.

Washington, Jan. 30.—It was learned today from official sources that the president intends to issue within the next thirty days his Philippine proclamation extending amnesty to the insurgents, and denouncing as outlaws and bandits all who do not avail themselves of its terms. This determination was reached after several conferences with the secretary of war and other members of the cabinet.

The proclamation has not yet been drafted, but the general terms of its provisions have been fully discussed, and it is announced that it will contain a declaration of the end of the insurrection in the islands. This will be followed by a grant of amnesty to all insurgents who lay down their arms within a specified time. The time has not yet been decided upon, but the president believes sixty days sufficient, and this meets the approval of the secretary of war.

The proclamation will declare that, owing to the termination of the insurrection, all persons who do not avail themselves of its terms within the time given will be treated as outlaws and bandits. For some time the president has had under consideration an announcement of the termination of the rebellion, but has been waiting for a complete disintegration of all the Filipino forces.

Crushing Remnants of Rebellion. Reports from General Otis do not show that any organized rebellion exists in the northern part of Luzon, and recent reports indicate that the only opposition found now is in the island south of Manila. General Schwan has been sent to conquer the enemy in this section, and has been meeting with surprising success. He has pursued the insurgents without abatement, and has inflicted severe defeats in every engagement, and the American forces in Cavite and Batangas provinces have reduced the Filipino organizations to mere roving bands of only a few hundred men.

The campaign under General Schwan is to be pushed with renewed vigor, and it is the intention of the president to issue his proclamation on the completion of the Schwan expedition. War department officials are of the belief that General Schwan will succeed in pacifying Cavite and Batangas provinces within a few weeks, and that General Otis will be able to report the complete pacification of the islands within less than thirty days.

There is much comment among army officers about the absence of news regarding Aguinaldo, and it is believed by some that he may have succeeded in escaping from the island entirely. Gen. Otis has not mentioned him in any report since he was being pursued by Major March's bat alion in the mountains toward Bayombong.

TWO OVERDUE LINERS

State of Nebraska and Ethiopia Have Not Been Sighted, Nor Any News of Them.

New York, Jan. 30.—[Special Telegram]—At 10 o'clock this morning the overdue steamers State of Nebraska and Ethiopia, had not been sighted nor any news received of them.

TRANSPORT THOMAS HAS BEEN SIGHTED

Brings Remains of Gen. Lawton, Major Logan and Others From the Philippines.

San Francisco, Jan. 30.—[Special Telegram]—The transport Thomas with the remains of Gen. A. Lawton, Major Logan and others who fell in the Philippines has been sighted.

Weather Bill Killed. In the house the arguments of Mr. Wadsworth and Mr. Williams of Mississippi failed to convince a majority of the members of the necessity for weather-bureau reorganization. They refused, 57 to 73, to further consider it at this time, and adjourned. Speaker Henderson stated that the bill would come up again when the house was in committee of the whole, on the calendar, but the opponents of the measure believe that it is dead.

MURDER CHARGE NOT PROVED.

Mystery of Elijah Russell's Disappearance Still Remains Unsolved.

Shelbyville, Ill., Jan. 30.—George Wade, who was under arrest here on a charge of murder supposed to have been committed in 1868, was discharged at the preliminary examination. Elijah Russell, an old soldier, left this town late in the evening on horseback in 1868 for his home in Dry Point township. His horse reached home the next morning, but Russell's whereabouts, if living, or his fate, if dead, has since remained an unsolved mystery.

George Parefer accuses Wade, and says he was an eye-witness of the murder. At the time he was a child of 1 year. He claims not only to have seen Russell killed, but to have seen the body buried. An investigation of the ground where the body is said to have been buried developed some corroborative evidence, but Parefer's unsupported testimony was not considered sufficient to substantiate his grave charge, and Wade was discharged.

TWO BANDITS SHOT DEAD.

Bob and Sam Curry Killed by Party of Detectives.

Casper, Wyo., Jan. 30.—After a desperate conflict lasting all day, a chase that has covered more than 2,000 miles of the worst mountain territory in the United States came to an end in the Hole-in-the-Wall Saturday, and two of the members of the bandit band that robbed the Union Pacific overland last May after wrecking the train with dynamite were shot to death.

Bob and Sam Curry are the road agents who were killed; George Curry the leader of the band, escaped. These men secured \$50,000 in the robbery, but much of it was unsigned currency. For their capture, dead or alive, \$18,000 was offered. The officers divided \$12,000 for the two dead bandits.

DECIDED VICTORY FOR THE CITIZENS

DECISION IN THE MILWAUKEE STREET RAILWAY CASE.

Judge Ludwig Sustains One and Dissolves Two Injunctions—Defiance of Street Railway Co.—Death of Rudolph Nunnemacher, a Prominent Business Man.

Milwaukee, Wis., Jan. 30.—Judge Ludwig yesterday afternoon sustained one and dissolved two of the injunctions issued in the street-railway case. The injunction sustained is the one enjoining the company from accepting the ordinance and restraining the city clerk from filing it and consummating its passage, by which it could go into effect. The two injunctions dissolved are still in force, however, as notice of appeal to the supreme court was filed at once. These are the injunctions directed against the final passage of the ordinance by the common council. They were the ones in which the judge held the mayor and the alderman to be in contempt of court for having violated their provisions.

Victory For the Citizens.

The decision of the judge in sustaining the Trentlage injunction is a decided victory for the citizens who have been fighting the ordinance. The dissolving of the two injunctions by no means let the aldermen off on the contempt holding, as the grounds for dismissal were based on errors in the initial proceedings.

In defiance of the injunction sustained by Judge Ludwig the Milwaukee Street railway company, through its manager, John Beggs, late yesterday afternoon filed with the city clerk its acceptance of the street railway ordinance. This is what the company is expressly enjoined from doing in the Trentlage injunction which was sustained by Judge Ludwig. The council at once ordered the acceptance of the ordinance to be placed on file, the vote being the same as that by which the ordinance was originally passed.

Death of Rudolph Nunnemacher. Rudolph Nunnemacher, one of the wealthiest and most prominent young men of Milwaukee, died yesterday as the result of an operation for appendicitis. He was a son-in-law of Frederick Pabel, being married to the youngest daughter of the brewer. The young man was taken sick on Wednesday, but it was not until Sunday that the operation was performed, and he failed to rally from the shock. Although a millionaire in his own name, young Nunnemacher held the position of chief of the real estate department of the brewery and attended to his duties like any other employe.

He had traveled extensively, especially in the Orient, and took part in the rescue of Kim Kok Kum, a Korean prince, who had been condemned to death. His collection of ancient and modern firearms is said to be the finest private collection in the world. He was born in Milwaukee in 1872, and his father, Rudolph Nunnemacher, was one of the leading bankers of the city at the time of his death. He was educated at the Milwaukee German-English Academy, and went early into business, under his father's direction. The funeral will take place on Wednesday.

ASSASSINATION OF SENATOR GOEBEL IN BROAD DAYLIGHT

Bloody Climax of the Kentucky Political Feud.

GOVERNOR TAYLOR AT ONCE CALLS OUT STATE TROOPS.

Five Shots Were Fired at the Democratic Contestant for the Gubernatorial Chair—The Shots Came From the Third Floor of the Executive Building in Frankfort—Only One Bullet Took Effect, Entering the Right Side and Passing Entirely Through the Body—He Said When Falling, "I Guess They Have Got Me Now"—The Wound Will Cause Death—Great Excitement—John Whittaker, a Butler County Farmer Arrested as Being the Assassin—Gov. Taylor Wept When He Heard the News.

Frankfort, Ky., Jan. 30.—[Special Telegram]—Senator Goebel was assassinated in front of the capital building at 11:15 o'clock this morning.

Five shots were fired at Senator Goebel from the third floor of the executive building.

It is not known how many times he was hit, but the wounds inflicted will cause death.

Mr. Goebel was picked up by friends and carried to his room at the Capitol Hotel.

The news of the shooting spread like wild fire, and thousands of people soon gathered about the scene of the shooting and the hotel.

Physicians were hastily summoned, and an examination of the wounded man showed that only one bullet took effect, entering the right side and passing entirely through the body.

Jack Chinn was with Mr. Goebel when the shot was fired, and as he picked Mr. Goebel up the wounded man said: "I guess they have got me."

A few minutes after the tragedy Gov. Taylor called out the state troops and stationed soldiers around the executive building.

The building was crowded with mountaineers at the time of the shooting.

Laid to Mountaineers

It rumored that some of the mountaineers who came in last week armed and equipped for a fight, were responsible for the shooting. Nothing definite has been accomplished towards the discovery of the guilty party or parties.

Gov. Taylor has instituted the most searching investigation and there is no doubt that the assassin will be located.

Immediately after the shooting the mountaineers who had come to Frankfort with threats of vengeance, began to get out of town and it is likely that the guilty ones are safe on the road to their mountain homes.

Republican leaders are loud in their denunciation of the dreadful murder and will assist in hunting down and punishing the guilty ones.

Goebel Has Many Friends

Senator Goebel was not a married man and has no near blood relatives living. He has, however, legions of tried and loyal friends and the final outcome of the assassination would be hard to predict.

Senator Goebel was the democratic nominee for governor during the late election. Gov. Taylor, his opponent, was seated and Mr. Goebel was conducting a contest for the chair before the state legislature of which he was a member.

The course of the contest plainly indicated that he would be successful and oust Gov. Taylor. This no doubt led to the assassination.

Threats Against Gov. Taylor

The friends of Goebel are wild with excitement and threaten the most dire vengeance. They openly charge that the assassination was a deliberate plot to dispose of the contest for the governorship.

It is freely threatened that Gov. Taylor and the republican leaders will follow the same fate that has befallen Senator Goebel.

These threats and the activity of the Goebel democrats have caused Gov. Taylor to call out the militia.

In view of the excitement and clamor no one knows when or where the next shooting will take place or who will be the victims.

A state of terror exists in Frankfort this afternoon.

John Whittaker Charged

Later, 3 o'clock p. m.—John Whittaker, of Butler county, was arrested, charged with the shooting of Senator Goebel. He had five pistols on his person when taken in charge.

When the news of the assassination reached the house the representatives that body adjourned in disorder. The excited men and women rushed out of the building.

The frenzied Democratic leaders demand that the executive building be searched and mutterings against Governor Taylor were heard.

Whittaker is believed by the police to be the right man.

The contest board meets this afternoon, but the democratic attorney general will simply admit the case refusing to make any arguments. They say they do this so that the case may reach the legislature and that Mr. Goebel be voted in as soon as possible for governor.

Gov. Taylor Wept

As soon as Gov. Taylor was informed of the attempted assassination he threw himself back in his chair and wept.

An application has been made to the judge of the circuit court to summon all the sheriffs and two thousand deputies to Frankfort.

Threats to Lynch Whittaker

As soon as the arrest of Whittaker became noised abroad, a mob formed in front of the jail and threats of lynching were freely indulged in.

A company of militia was called and the crowd was kept at bay but was making ugly threats.

Goebel Still Alive at 4 O'clock

It is not an entire certainty that Whittaker did the shooting as there are many conflicting stories.

Goebel was still alive at 4 o'clock, but there is no hope whatever of his recovery.

Louisville is Horror Struck

Louisville, Ky., Jan. 30.—[Special Telegram]—Citizens, both democratic and republicans, were horror struck when the news of the assassination of Senator Goebel reached here about noon. The bloody deed is denounced in unmeasured terms on all sides. There is a loud demand that the miscreants be hunted down and punished.

His Wife Was a Purchaser

He found him down at Whitehall crossing gazing at a locomotive that was standing steamed up ready for making its departure from the city when a friend who had noticed him pivoted there for some time stepped up and remarked: "Say, Bill, why do you stand staring at that steam engine all the time?" "Well, Jim," he replied, "It's the first thing that I've struck since I came up here that my wife hasn't asked me to buy!"—Monroe Advertiser.

Clinton, Jan. 30.—In a friendly scuffle which took place at the Cheesman House Friday morning between a couple of young fellows the fun unexpectedly changed to groans when Patsy Keough, one of the contestants, dislocated his ankle. Dr. O. B. Wright was summoned to treat the unlucky joint.

People here know nothing about the Clinton wedding which the La Prairie jester spoke of last week.

The G. A. R. play given at the opera house Thursday evening was largely attended, over 400 tickets being sold. The boys realized about \$100 out of the performance, which will be used in the purchase of uniforms.

SIX CORNERS.

Six Corners, Jan. 30.—The condition of Miss Kathie Rooney, who is suffering from complications arising from an attack of the grippe, does not improve materially and the prospect for immediate recovery is not very assuring. Mr. and Mrs. J. O. Oakley are at the home of Mr. Oakley's brother in Lima who is seriously ill with pneumonia. Frank Richardson went to Roscoe, Ill., to help Mr. Hayward move his family and goods to this place. Mr. Hayward will occupy the John Marquart farm during the coming year. The family of Emil Langer near Mt. Zion were all poisoned Sunday morning by eating some cheese which Mr. Langer had bought in Janesville the day previous. The cheese was eaten at breakfast and no bad effects were felt until noon when all became suddenly very sick. Dr. Sutherland was called in and by prompt measures soon relieved them. Unfortunately the cheese that remained uneaten had been burned up so that the doctor was unable to say just what was the nature of the poison, but an investigation will be made where the cheese was purchased. Oak Lawn creamery paid an average price of \$1.05 per hundred for December milk. Mr. Summerbell received \$1.48 which was the highest price paid. Mr. Godfrey's West Harmony factory paid \$1.11 per hundred for the same month. Walter Holmes is having a well drilled upon his new farm.

LIVE HOG MARKET SLOW LAST WEEK

Current Prices At Milton Were Very Uncertain.—Milton Social and Personal Notes.

(THE GAZETTE AGENCY)
W. W. CLARK, Manager.
Milton, Wis., Jan. 30, 1900.

The live hog market last week was not calculated to make shippers rich. The packers were "milking" the market and prices rose and fell with the sun, consequently local shippers got the decline rather than the rise, but the farmers had a benefit. The outlook for five cents hogs in Chicago the present week is bright, but higher prices will not bring the anticipated heavy receipts unless swine are more numerous elsewhere than here. The supply in this locality is limited and large droves are hard to find. At the close of the week prices were firm at the best grades would bring \$4.50 to \$4.60. Car load freight shipments from this station for the week included four cars of hogs by Vincent and Hassenger, one of cattle by M. B. Magoon, of horses by McLay Bros., and one of tobacco by Soverhill and Porter.

Mrs. D. Williams is among the sick. Fortunately the cold wave was not of great duration, but was severe enough while it lasted.

Mr. and Mrs. Swan of Janesville, were visitors at J. E. Waterman's Sunday.

John M. Howe, who has been spending some time here, returns to his Milwaukee home this week.

The entertainment following was well carried out. After the exercises about one hundred and fifty Royal Neighbors and Woodmen went to the supper room to eat chicken pie. Atton, Clinton and Beloit were represented, and all enjoyed the occasion. Sid Nash moved to Beloit last week. We expect the house he left will soon be occupied by another family. Jerome Shimeall came home from Artigo last week. He will return soon, with more horses.

Mrs. Wright, wife of Jack Wright died down south on Wednesday, Jan. 24. The remains were brought to her father's home, Mr. Robert Pollock, where the funeral was held on Sunday afternoon at 1 o'clock, P. C. Richardson officiating. James Haggart arrived home from Iowa on Saturday, where he has been visiting the past two weeks. The next club dance will be held at the hall on Thursday evening, February 1. A general invitation is extended to all. Horses stabled and baggage set free. Harden's band from Clinton will furnish music. A good many from this place went to the Woodman dance at Atton. There will be a Valentine social at the Congregational church, February 14. Rev. Mr. Gardner and wife will soon move to this place. M. E. Matt and family is expected to move here soon from Janesville. Harry Van Galder and wife came down to the entertainment last week.

PRICE OF KEROSENE ADVANCES

Cost of Benzine and Gasoline is Also Much Higher.

The price of kerosene is advancing, and with it the prices of benzine and gasoline. Last year at this time coal oil sold at 4 and 4½ cents a gallon wholesale; today it brings 9 cents and the prospect is that it will go to 12, which would make the cost to the housekeeper about 14 cents, calculating on a basis of 15 per cent profit for the retailer.

Officials of the Standard Oil Company in assigning a reason for the rise, say that the consumption exceeds the supply. The thrifty housewife is advised not to be down hearted, however, and to remember that in 1895 the price of kerosene was 48 cents a gallon.

Do You Know

Consumption is preventable? Science has proven that, and also that neglect is suicidal. The worst cold or cough can be cured with Shiloh's Cough and Consumption Cure. Sold on positive guarantees for over fifty years. Sold by J. P. Baker.

WHAT DO THE CHILDREN DRINK?

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing, and takes the place of coffee. The more GRAIN-O you give the children the more health you distribute through the systems. GRAIN-O is made of pure grains, and when properly prepared tastes like the choicest grades of coffee but costs about 1/4 as much. All grocers sell it, 15c and 25c.

Lumbago

In most cases, is the vanguard of sciatica and cannot be cured for any too quickly. The seat of this disease is in the region of the loins. The muscles of the back become very sore and stiff, causing sudden sharp and shooting pains and producing a shock in the lumbar region which almost prostrates the patient. If this is not checked it gradually follows the sciatic nerve down either limb. The soothing

WE KEEP THE QUALITY UP.

A Great Cut IN Jackets

Quality and styles considered. It is the greatest cut in prices that has been made. We have 130 high class Jackets for women on hand and offer them without reserve at just 1/2 of the former prices. Do not confound these Jackets with the ordinary run of garments that are being advertised at half price.

Such a Chance...

To buy Jackets so well made and of such excellent cloths and so well lined is rare indeed. Many of them are lined with Skinner Satin, guaranteed to wear for two years.

A \$10.00 Bill...

Will buy a Jacket that sold for \$20, and you know what that means at this store.

A \$5.00 Bill...

Takes a \$10 jacket. Think of the saving.

Capes...

Of these we have shown all the season values that have made competitors stagger. Time after time women have looked here first, then ransacked the town to try and do better, only to return satisfied that they could not find Capes that approached ours for sterling worth.

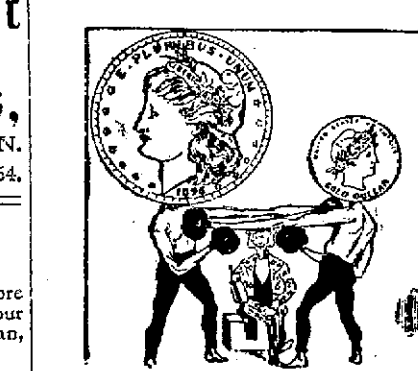

We Are Not...

Offering Capes at half price, but we are offering them very low, both cloth and Fur Capes. Our assortment of Capes is very good and at present prices like gold dollars for 90c, as we could not buy them today at the figures we are selling them for.

You Ask Why? ? ?

Because the cloth and plush they are made of are both so much higher, like many other things.

MORE ZERO WEATHER MADE IN MANITOBA

Cold Snap Today Promises to Go Five or More Below During the Night.

Another consignment of zero weather, made in Manitoba, arrived in Janesville in time for breakfast this morning. It took passage up in the Winnipeg region late yesterday afternoon and swept through the Dakotas, Minnesota and Wisconsin during the night. Prof. Cox and his wise men of the weather bureau in Chicago say the mercury will flirt with the zero notch most of the day, and with a shifting brisk nor'wester to keep it moving will go below by night—surely as low as 5 degrees, with hopes of even colder things. "And nothing warm in sight," they added when asked how soon ulsters and sealskins might be banished with safety.

The cold wave news dashed the hopes of people who had visions of spring yesterday when the thermometer climbed to 20 above and snow flurries swirled through the air. It grew perceptibly chillier, however, as night came on and frosted window panes and the north wind's sighs gave sign that Prof. Cox's word was in imminent danger of coming true. "Today's 'snap' is a continuation of the wave that struck town Sunday and switched off to the south yesterday."

Accomplice to Break Jail.

Bowling Green, Ohio, Jan. 29.—James Brandon, Wright Underwood and Claude Martin made a desperate effort to escape jail by overpowering the sheriff and his deputy. When discovered they had wrenched a heavy iron bar from the window in one of the cells and were about to tear out another. Brandon caught up a heavy padlock and tried to brain Sheriff Kingsbury. Deputy Roach came to the rescue, and after a hard fight the prisoners were forced into their cells and hung up to the bars by their wrists. After two hours of this treatment they weakened and divulged the hiding place of several knives which they had secreted. This is the third time they have attempted to break jail in two months.

Mexicans Kill Americans.

Washington, Jan. 30.—A telegraphic report of the killing of six Americans near Guaymas, Mexico, by the alleged order of Gen. Torres has been received at the state department from Charles W. Kindrick, the United States consul at Juarez, which is just across the Rio Grande from El Paso, Texas. Mr. Kindrick mentions a rumor that the men were shot by Mexican soldiers on suspicion that they were concerned in the Yaqui Indian troubles, and says he has been unable to confirm it. Secretary Hay sent instructions to United States Minister Power Clayton at Mexico City to investigate.

Wealthy Woman Found Dead.

St. Louis, Mo., Jan. 30.—Bridget Smith, a wealthy recluse, was found dead seated in a chair in her room at 1426 North Seventh street, late Monday night. Not having been seen by neighbors since Thursday, the police were notified. The door was broken in and a police guard was detailed to protect the house until the public administrator could take charge. A number of valuable rings, a handsome gold watch and other expensive jewelry were found on a dresser.

Suicide of a School Teacher.

Moberly, Mo., Jan. 30.—John Oliver, a school teacher, well and favorably known throughout the country, committed suicide at Huntsville Monday by shooting himself with a revolver.

Mangled in the Machinery.

Steven's Point, Wis., Jan. 29.—Ernest Vanorder, junior partner in the firm of Vanorder & Son, was instantly killed in his flour mill at Jordan. He had the water turbine blocked so that a little water would flow through and keep the wheel from freezing, without running the mill. He knocked out the block to start the mill, and his clothing catching in the machinery, he was dashed to death.

Women's Hate in a Blaze.

Logansport, Ind., Jan. 30.—While the minister at the Evangelical church was in the midst of a fervent exhortation, Miss Mary Warden's celluloid comb ignited from a hot stove, and her hair flamed so briskly that the congregation was panic-stricken. One of the brethren enveloped her head in a rug and subdued the blaze with but little injury to Miss Warden.

IVORY SOAP PASTE.

In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

A WORD OF WARNING.—There are many white soaps, each represented to be "just as good as the Ivory"; they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Can't Keep It Up

Can't Deceive Janesville People Very Long—They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Mr. Samuel Griffin, of 205 Locust St., journeyman car enter, says: "I had a severe attack of grippe and as a result weakness of the kidneys set in. These troubles from those organs were greatly disordered, annoyed me much at night and I seemed to have lost control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Doan's Kidney Pills for bringing about this result."

Standard Oil Raises Prices.

New York, Jan. 30.—The stock of the Standard Oil company sold today on the curb in Wall street at \$520 a share on rumor that the company is to pay dividends equal to 45 per cent on its capital stock of \$100,000,000 during 1900. Mr. Rockefeller has raised the price of kerosene, which will add about \$30,000,000 annually to the revenue of the company. It is said that the visible supply of petroleum in the United States has not been so small in twenty years as at the present time, and that the trust holds a complete corner on the market.

TO REGULATE TRUSTS

The Washington correspondent of the New York Herald sends the following dispatch to his paper:

Mr. Bryan and other democratic leaders are planning to make an anti-trust declaration one of the principal planks of their platform, but the republicans may execute a flank movement that will make the issue a very subordinate one, and will give their party whatever credit is to be gotten out of it.

Some of the republican leaders have come to the conclusion that if congress should pass a resolution proposing an amendment to the constitution to give the United States government power over corporations, it would leave no chance for the intended democratic assaults on trusts. Should such a resolution be passed during the spring or early summer, it could not be acted upon by the various state legislatures before next winter, and the issue would in the meantime be in suspense with the credit for having taken the first step in the direction of effectual control of trusts resting with the republicans.

One step has already been taken in that direction by the introduction of a resolution by Representative Jenkins of Wisconsin, chairman of the sub-committee of the house committee on judiciary, charged with the consideration of the trust measures and his action is in a way a reply to a challenge from democratic members of the committee.

A study of various propositions then before the committee led Mr. Jenkins to the opinion that none was practicable or effective, and the result was the preparation of his resolution proposing a constitutional amendment.

While republican members of the senate declare they will report a measure of some kind, they will not do anything until the report of the industrial commission has been received.

Advocates of action along the lines of the Jenkins resolution figure out that it would put the republicans in an invincible position in the next campaign.

"I am simply a democrat, without adjective, qualification, or hyphen," says W. Bourke Cockran. This is certainly a hot shot at Mr. Bryan's adjectives and hyphenated eloquence as well as somewhat of a reflection on The Hon. D. B. Hill, who simply said "I am a democrat."

Fifteen thousand men are now on their way to Cape Nome in search of gold. Forewarned is forearmed, so now is the time to raise a Klondike relief fund to bring 12,000 of them back, a few weeks hence.

D. B. Worthington has bought the interest in The Beloit News formerly owned by W. S. Goodland, and is now the sole owner of The News. Mr. Goodland will practice law in Beloit.

Chicago hold-up men are again working on the how-would-you-like-to-be-the-iceman plan—locking their victims up in the refrigerator while they rifle the store.

Quincy, Illinois, policemen killed two safe blowers and captured a third a few days ago. Prevention is better than cure. A dead Indian raises no scalp.

Americans buy \$7,000,000 worth of hat trimmings in Paris yearly, says an exchange. This fact, we assume, explains why they call it "millinery."

If the wide circulation of The Milwaukee Journal's article on "The Knockers Club" is receiving is any criterion, a lot of cities must have "Knockers Clubs."

And now it is announced that the price of baby carriages is to be pushed along. When this news reaches Philadelphia there will be a riot.

St. Joseph, Missouri, people are not in favor of doing the running themselves, either. They offer a bounty of \$600 for every highwayman killed.

As Ex-Governor W. H. Upham is a graduate of West Point, the move to have him appointed on this year's Board

of Examiners for admittance to that institution would appear to be most appropriate.

A Maryland hen laid an egg with Bryan's initials on the shell. Perhaps this is the reason that Bryan counts his chickens before they are hatched.

It is not at all strange that safeblowers should work in Chicago. The "Windy City" is a great town for blowing, you know.

SMALLPOX IN KENTUCKY.

Rages So Fiercely in Several Counties That Schools and Courts Suspend.
Owensboro, Ky., Jan. 30.—Great anxiety is felt in this section of Kentucky over the rapid spread of smallpox. Many new cases are being reported daily in this and McCracken counties and in Owensboro the schools and courts have suspended operations because of the epidemic. Judge Evans today announced that he would not hold the session of the United States court, to have begun this morning, until June. In McCracken county and the city of Paducah the courts have ordered compulsory vaccination, and every physician in the county has been deputized to assist in carrying out the orders.

SWEEPING SALOON DECISION.

Iowa Supreme Court Causes Many Liquor Places to Close Their Doors.
Des Moines, Iowa, Jan. 30.—The Iowa Supreme court has handed down an opinion holding that all saloon-mulct petitions secured before the enactment of the new code are insufficient, and all saloons operating under such petitions are doing so illegally.
As a result most of the seventy-two saloons of Des Moines are closed and the remainder are expected to shut their doors at once. This decision of the court is the most sweeping and the most serious to the saloon interests in Iowa since the enactment of the prohibitory law.

TWO PASSENGERS KILLED.

Fatal Street Car Accident Reported from Dayton, Ohio.
Dayton, Ohio, Jan. 30.—Two persons were killed in an accident on the Dayton & Xenia traction line Monday. A car containing fifteen passengers came dashing down the hill at Ohmer park, the air brakes refused to work, and at the turn at Phillip and Wyoming streets the car shot up in the air and plunged down the grade, turning over once. Miss Hallie Klump, aged 21, of Alpha, Ohio, and John Hawker, aged 45, of Shakertown, were killed. All the other passengers were more or less shaken up and bruised.

LIMA.

Lima, Jan. 30.—Alice Carroll attended church in Whitewater Sunday. Mrs. Fred Ohid of Hanover, was a guest at O. Truman's Saturday. Mr. Woodstock has rented a part of Ella Elphick's house and will move there soon. Florence Stetson came from Orfordville Friday night and visited her parents until Saturday night. O. E. Truman, Mr. and Mrs. David Collins and Mr. and Mrs. Peter Elphick attended quarterly meeting at Newville last Saturday and Sunday. A wonderful change in the weather has been ours to enjoy (?) since the last writing. In response to invitations sent out last week about sixty-two of Messrs. N. Freeman and W. D. McComb's men friends met at Holbrook's hall on Friday evening to participate in a "smoker and banquet" given by them for the benefit of the L. A. A. At 9:30 three young men donned white jackets and capes and proceeded to serve the company to an oyster supper, which proved very appetizing. After the supper the pipes were filled and a smoky time ensued. A very enjoyable evening was spent and a neat little sum added to the treasury of the association.

The Kaiser's Curious Talisman.

The German Emperors possess a family charm, or talisman, which is a black stone, said to be handed down by each dying monarch to his successor, and to have an origin curious even among charms. According to a legend the stone was dropped by a huge black toad on the bedcover of a princess who had just given birth to a son. The father of Frederick the Great, one of the strangest barbarians in modern history, had the stone mounted in a ring. There are documents relating to it in the archives, and the present Kaiser wears it on all great occasions.

Scrap from Georgia Melons.

An enterprising Georgia farmer has become the pioneer in a new industry—namely, making sirup out of water-melons. He cuts the melons in halves, scoops out the pulp, runs it through a cider mill, presses out the juice and then boils the liquid for twelve hours over a hot fire. Out of 270 melons, worth \$5 or \$6 at wholesale, he gets thirty gallons of sirup and markets the product at 50 cents per gallon. The refuse is fed to the hogs, cattle and chickens, and the whole operation is very profitable.

WILLIAM CAMPBELL MAKES CONFESSION

SAYS BUNDY ASSISTED HIM IN ROBBERY.

Further States That Devers and Tobin Had Nothing to Do With the Affair—Bundy Now Behind the Bars—Looks Like State's Prison for the Alleged Robbers.

William Campbell of Beloit, who of late has been occupying a cell in the Rock county jail on the charge of highway robbery, is alleged to have made a full confession.

According to interested officers Campbell has stated that he and one Harry Bundy of Beloit, are alone responsible for the recent hold-up in Beloit. Campbell, it is alleged, also stated that Edward Devers and Michael Tobin also of Beloit and under arrest on the same charge, are innocent and that they had nothing to do with the robbery.

Campbell was arrested along with Edward Devers and Michael Tobin also of Beloit. At Beloit the prisoners waived examination and February 2 will appear before Judge Field of the Rock county municipal court. They are charged with robbing Miss Sarah Snyder of Beloit, while on her way home from work.

This afternoon Marshal Appleby of Beloit, arrived in the city having in charge Bundy. It is said that Campbell wanted to appear in court today and take his medicine.

At 3 o'clock this afternoon Campbell was brought into the municipal court by Deputy Brown. The prisoner pleaded guilty. He also implicated Bundy. Sentence was deferred until tomorrow at 10 o'clock.

LANGER FAMILY POISONED BY CHEESE

FATHER AND SIX CHILDREN WERE STRICKEN.

Prompt Action of Dr. Q. O. Sutherland Was All That Saved Their Lives—Purchased the Cheese of a Janesville Grocer—It Was of the Limburger Brand.

Prompt action on the part of Dr. Q. O. Sutherland of this city, is all that saved Emil Langer and his six small children from the grave as the result of cheese poisoning.

The unfortunate family was taken ill yesterday morning at their home in the town of Harmony and for four hours there was considerable doubt regarding the recovery of two of the children.

After Mr. Langer had gained consciousness he related that he drove to Janesville on Saturday last and made the purchase of a quantity of Limburger cheese at a local grocery store. Yesterday morning at breakfast the cheese was placed on the table for breakfast. All the members of the family partook, with the exception of Mrs. Langer. An hour after the meal one of the children was taken violently ill; she vomited and was in apparent great agony. Then the other five children were suddenly stricken. The symptoms were all alike. Mr. Langer suddenly succumbed, and a messenger was at once sent for Dr. Sutherland. On his arrival he found seven members of the family suffering. Frequent vomiting spells was all that saved their lives.

Accumulation of vegetable poisoning in the cheese caused the trouble, and came near ending in a terrible calamity.

SIX HUNDRED HEARD LECTURE

Denison handled his subject well and all present spent a most interesting and profitable evening. Mrs. W. F. Bosworth, president of the School Art Auxiliary introduced the speaker.

PRESENT PETITION TO GOV. SCOFIELD

SIXTY-EIGHT SIGN MILITARY COMPANY ROLL.

Henry Baldwin Makes Trip to Madison Where He Presented the Matter Before the Proper Authorities—Beloit and Kenosha are Also in the Field This Year.

With the names of sixty eight well known Janesville boys signed to a petition Henry Baldwin, ex-first lieutenant of Company A, presented the same to Governor Edward Scofield in the hopes that the state officials will see fit to sanction the organization of a military company in this city.

Mr. Baldwin made the trip to Madison for no other purpose. The matter is in the hands of Adjutant General Boardman. Much will depend on his action as to what steps will be taken.

The last attempt to form a military company was a failure. Sufficient signatures had been obtained but after Colonel Caldwell had made the trip here from Madison not enough young men volunteered. In this district there is at present a vacancy for two companies. Kenosha, Janesville and Beloit have all made application and as the matter now rests one of these cities will be obliged to withdraw. Beloit, it is said, stands first chance. At Madison the officials spoke favorably of Janesville in preference to Kenosha. The question will be definitely decided next month. In case a company is formed here it is yet undecided where the headquarters will be. The greater portion of the signers favor releasing the Army of the Trades Council.

STATE BOARD OF MEDICAL EXAMINERS

SPECIAL MEETING TO BE HELD AT LA CROSSE FEB. 13.

Opportunity Will be Given Badger and Other Physicians to Comply With the New Registration Law—The Registration Law Expires on April 1, 1900.

The State Board of Medical Examiners will meet at the Cameron House in La Crosse on the 13th day of February, for the purpose of licensing such physicians as desire to practice in this state after April 1st next.

The law of 1897 provides that every physician coming into the state after April 20, 1897, must secure a license from the Wisconsin Board of Medical Examiners before being allowed to practice. This license can only be obtained by presenting a diploma from a recognized medical college, or by taking the board's examination. The registration law of 1899 provides that every physician or surgeon in actual practice in the state on July 1, 1897, must register with the board before April 1, 1900. But any qualified physician, i. e., one possessing a recognized diploma, may secure a license instead of registering, if he so elect. A majority of qualified physicians have done this.

The registration certificate, as is stated on its face, is not a license to practice medicine or surgery. It confers upon its holder no powers or privileges not possessed by him before. The license, however, explicitly gives authority to "pursue the practice of medicine and surgery" in the state of Wisconsin. It is also prima facie evidence of graduation from a recognized college. County clerks are required to record licenses and registrars in separate books, and life insurance companies or other enquirers as to professional standing will naturally refer to licenses first. These are some of the reasons why most graduates prefer licenses.

Attention is called to the fact that the registration law expires April 1, 1900, and that after that date the board can not legally register any physician. After April 1 any practitioner not registered or licensed will be subject to the penalties for the violation of the law, and the board will have no alternative but to prosecute. It is not believed that any physician wishes to evade or violate the provision in question, but very many have been extremely careless, about compliance with the same. The purpose of the special meeting in La Crosse is to accommodate those who have not yet complied with the law, and it is hoped that a general response will be thereto.

Physicians living in Minnesota or Iowa who practice in Wisconsin must comply with this law.

CAROLYN VAN AKIN'S NARROW ESCAPE

Dormitory at Oberlin College Destroyed by Fire at an Early Hour This Morning.

Miss Carolyn Van Akin, daughter of Mr. and Mrs. C. W. Van Akin of this city, narrowly escaped death at an early hour this morning as the result of fire at Oberlin, Ohio.

ANTI-TRUST LAW IS INVALID.

Judge Kohlsaat Declares Act of '93 Unconstitutional.

VITIATED BY CLASS EXEMPTIONS

Ninth Clause of Statute in Question. Excluding Agricultural and Stock-Raising Combines from Its Operations. Held to Be Special Legislation.

Chicago, Jan. 30.—The state anti-trust law of 1893 has been declared unconstitutional by Judge Kohlsaat, who holds that, because of the section which exempts from its provisions the agriculturist and stock-raiser, the statute is tainted with class and special legislation, and therefore contravenes both the federal and state constitutions. The objectionable part of the law is section 9, which contains the words: "The provisions of this act shall not apply to agricultural products or live stock while in the hands of the producer or raiser." The supreme court of the state has never passed upon the law of 1893. Its decisions upholding the validity of the act of 1891, of which the law of 1893 is an amplification, were rendered, to be sure, in the "milk shippers" and "glucose" cases, but the statute of 1891 did not contain the clause which Judge Kohlsaat now brands as fatal class legislation.

The ruling was made in the case of the Union Sewer Pipe company against Thomas Connelly, but applied as well to the case of the same plaintiff against William Dee, the two cases having been consolidated, and the action being brought to recover some \$6,000 on contracts, the defendants resisting payments on their notes on the ground that, under the Illinois statute, a "trust" had no right to sue or recover on any contract made in this state.

After pointing out that the contracts in litigation are not of themselves in restraint of trade, and hence not void under the common law either of Ohio or Illinois, and after holding further that no principle of interstate commerce (the legal crux of the Sherman anti-trust law) was involved, the court holds that the said classing taints the whole act and renders all void. Therefore the special defense set up in the third notice must be stricken out.

Opinions differ as to whether the state is now left without an anti-trust law. It is held by some lawyers that the act of 1893 did not supersede that of 1891 and that the latter statute is still in force. Henry Coghlan, representing one of the defendants, declares that both laws are wiped out of existence.

BUTTERINE SOLD FOR BUTTER.

J. H. Rooney and W. H. Butler to Answer to This Charge.

Chicago, Jan. 30.—John R. Rooney and Walter H. Butler, who have been doing a lucrative business as wholesale dealers in butter and butterine under the name of the Aurora Produce company, have been cited to appear before United States Commissioner Mason to answer charges of violating the United States revenue law in selling butterine for pure butter to hundreds of country customers in Illinois and other states. United States Revenue Agent McGinnis received complaints from New York grocers, who said that their letters addressed to the firm at Aurora were unanswered, and that fraud had been committed by selling them butterine for pure butter. Agent McGinnis found that the firm's mail was forwarded from Aurora to No. 700 West Forty-seventh street, in care of the Ceylon and Japan Tea company, from which point all of the goods of the firm were shipped. He also found that revenue stamps had been removed from oleomargarine and butterine packages, which were then sold as "pure butter." This, upon conviction, involves a penitentiary sentence. The defendants are under \$2,500 bonds each.

Leaves Chesapeake & Ohio.

Cincinnati, Ohio, Jan. 30.—M. E. Ingalls will sever his connection with the Chesapeake & Ohio railroad as its active head on Feb. 1. His successor will be George W. Stevens, who has been the general manager of the Chesapeake & Ohio road for a number of years and who at present is making his headquarters in Richmond. Mr. Ingalls will continue at the head of the Big Four system, with headquarters in this city.

Coroner Finds No Clue.

Springfield, Ill., Jan. 30.—Coroner Baer held an inquest over the remains of the Rev. Father Sullivan, but the mystery surrounding the priest's death was not solved. The remains were shipped to Worcester, Mass., for interment. The priest's coffin, which was missing when the body was found, has not been located. The police are working on this clue, the murder theory being adhered to.

Stops Archbishop's Salary.

Paris, Jan. 30.—The cabinet has decided to stop the salary of Cardinal Richard, the archbishop of Paris, for an unlimited period in order to punish him for visiting and condoling with the Assumptionists. The bishops who sent congratulations to the Assumptionists will have their salaries stopped for short periods.

May Agree on Wage Scale.

Judianapolis, Ind., Jan. 30.—Miners and operators went into session again Monday to discuss the scale. Vice-President Lewis gives it as his opinion that a settlement will be made without serious clashing. The operators offer 13 cents a ton advance, and the miners ask 20 cents.

DEATH LIST IS APPALLING.

Returns Indicate That Buller's Flank Attempt Was Terribly Disastrous.

MANY OFFICERS WERE KILLED.

Thirty-Three Were Wounded and Six Are Missing—Fearful Rank and File Loss Expected—Boers Had Perfect Range of the Trenches.

London, Jan. 30.—The war office announces that it has received no news from South Africa beyond a message from Gen. Lord Roberts declaring that the situation was unchanged, and there is nothing of importance from other sources. Everybody is still in the dark concerning the whereabouts of Gen. Lyttelton's brigade and Lord Dundonald's mounted troops, and though there is no apparent reason to suppose that they did not recross the Tugela safely, there is a certain amount of anxiety for tidings from them. Meanwhile the only intelligence is that conveyed in the casualty lists. These are as yet incomplete, but they already indicate the probability that Gen. Buller's attempt to find a way round has cost dearer than his frontal attack upon the Boers at Colenso.

Fearful Loss of Officers.

In the loss of officers, indeed, the Colenso action was far exceeded. The assault on Spion kop caused the death of twenty-seven officers, exclusive of thirty-three wounded and six missing, while Gen. Lyttelton previously lost nineteen killed or wounded. This, of course, leads to the expectation of an appalling roll of deaths in the rank and file.

A list of casualties among the officers of the Fifth division and mounted brigade in the attack on Spion kop on Jan. 24, issued by the war office, shows that twenty-two officers were killed and twenty wounded, while six are missing.

Major Strong of the Second Camerons and sixteen men were killed, fifty-nine were wounded, and one is missing.

The King's Royal rifles had sixteen killed, sixty-one were wounded, and one is missing.

Boers Partially Corroborated. Additional accounts of the fighting on Spion kop, though they do not confirm the story received from Boer sources that the position was taken by them by storm, wholly corroborate the enemy's version of the severity of the fire.

One report from Frere states that the Boers had the range of the trench they previously occupied so accurately that while the British held it the burghers dropped sixteen shells a minute into it, while the whole summit of the hill was raked by machine guns, and an appalling rifle fire delivered from the rifle pits in which the Boers were completely hidden.

If this account is not exaggerated the wonder is that any of the British were left to "abandon" the position which, nevertheless, they held tenaciously for twenty-four hours. The latest advances strengthen the probability that the whole Spion kop affair was a ruse of the Boers, who, it seems, made Gen. Warren's seizure of the position easy in order to enable them to destroy his men at a marked range.

Gen. Buller, as apparently not removed his headquarters from Spearman's camp. The latest casualty list is dated from there.

British Strength in Africa.

The following table shows the losses sustained by the British since the war began, and the number of troops there and on the way:

British killed to date	2,189
British wounded	4,311
British taken captive	2,236
Total losses to date	8,736

Do you remember how you felt in the mornings when you were a boy? How good it was to begin a new day! How hungry you came to table! How tired you went to bed! How soundly you slept! Don't you find yourself saying sometimes, how I wish I could get up like that boy, eager for the day and feeling fit for it? And then don't you turn away with a sigh as if the wish were impossible of fulfillment, and start on the new day's journey tired at the outset?

It's not impossible to get back that glad boyish feeling again. It only means getting back health. Put your stomach in order and see how soon your sleep will be dreamless, your rest sound, your appetite hearty and your work a pleasure. The best remedy for all ailments of the stomach and nutritive organs is Dr. Pierce's Golden Medical Discovery. Try it and join the great army of sick people made well by its use. Nothing is "just as good." If you go for "Discovery" get "Discovery."

"The praise I would like to give 'Golden Medical Discovery' I cannot utter in words or describe with pen," writes James H. Ambrose, Gen. of rank, Milton St., Huntington, Pa. "I was taken down with what our physician said was indigestion. I doctored with the best around here and found no relief. I wrote you and you sent me a question blank to fill out and I did so and you then advised me to use Dr. Pierce's Golden Medical Discovery. I took three bottles and I felt so good that I stopped, being as I think, cured. I have no symptoms of gastric trouble or indigestion now."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth-bound.

QUEEN'S SPEECH TO PARLIAMENT.

Deals with African War at Opening Session.

London, Jan. 30.—The queen's speech at the reassembling of parliament today was colorless. There was a short reference to the war, chiefly confined to regrets at the terrible bloodshed and enormities of the men who have laid down their lives for their country. The whole proclamation indicates that there is not the slightest idea of giving up the war until Great Britain's ends are gained.

The speech says that relations with all the foreign states are very friendly, and expresses great pleasure and gratification at the patriotism shown by the colonies at a critical period in sending troops to South Africa, and at the patriotism existing in the empire generally. It also expresses gratification at the offers of troops from Indian native chiefs, and alludes to the satisfactory completion of the treaty relating to Samoa. The opposition leaders have decided upon Lord Edmund Fitzmaurice, member for the Crickdale division of Wilts, to move the amendment to the address involving the vote of censure. The amendment will be of a comprehensive character, virtually convicting the government of want of knowledge, foresight and judgment in the management of South African affairs since 1895 and in the preparations for war.

Want Peace by Arbitration.

New York, Jan. 30.—A mass meeting in favor of arbitration and peace is to be held at Carnegie hall next Tuesday. More than 100 clergymen have written accepting invitations to act as vice-presidents of this meeting. The justice of the South African war will not be discussed. The object of the meeting is peace by arbitration and to urge the president of the United States to act under the peace convention of The Hague.

Loyals' Aid at St. Petersburg.

St. Petersburg, Jan. 30.—Mr. Burger, the second secretary of the Transvaal European agency, has arrived here. It is supposed that he will try to enlist retired Russian officers for service in the Transvaal.

Will Send No More Cables.

Cape Town, Jan. 26, 12:05 p. m.—The Transvaal has notified the Cape government that all cable communications will be suspended during the continuance of the censorship by the British.

BURIED TREASURE FOUND.

Somebody's Board of Gold Discovered by a Workman.

Jeffersonville, Ind., Jan. 30.—Spearman Norton of Henryville, Ind., while employed in widening a tunnel on the Baltimore & Ohio Southwestern railway near Mitchell, Ind., struck a large tin can, which, upon examination was found filled with gold coins amounting to \$750. The coins all bear date previous to 1862, and the supposition is that they were secreted during the John Morgan raid into this state by some person who forgot where he had buried the treasure, or who died without letting others know that the gold had been secreted there.

Japan the Ally of Russia.

Washington, Jan. 30.—Startling developments are expected in the orient. It is believed here that Japan, counted upon by Great Britain as the latter's fast friend in the resistance to expanded Russian and French aggressions in China, has abandoned Great Britain. She has negotiated, or is about to negotiate, a treaty with Russia which will guarantee Japanese interests on the Asiatic mainland, while permitting Russia to obtain the concessions of her sphere of interest in the directions she most desires. In view of the strange developments, the navy department's determination to send three warships to Chinese waters in the neighborhood of Shanghai or to the Yangtze Kiang has leaked out. Admiral Watson will send two vessels from the Philippines, while the Marblehead will probably be dispatched from the Pacific coast.

New Baseball League.

Washington, Jan. 30.—A new baseball organization has been launched, and the National league stands as its sponsor. The new league has been christened the American association, apparently as a blind to throw the public off the track, as there is another American association, which is being formed in Philadelphia, and which informally organized last fall in Chicago. The new organization has asked for and received promises of protection from the National league, and has so far four clubs—Chicago and St. Louis in the west and Boston and Philadelphia in the east. It is believed that Hart, Robinson, Brush, Soden and Rogers are the originators of the idea of a rival league.

Money in Ginseng.

Bowling Green (Ky.) Times: There is a ginseng farm in Grayson county, consisting of 100 acres of timber. Under one tree there was recently gathered five pounds of this valuable root. It is worth \$2 per pound, and the owner figures that he will make \$750 per acre, making the farm of 100 acres of timber worth \$75,000.

Dr. Greene's NERVURA

BLOOD NERVE REMEDY

Makes Sick Women Well and Weak Women Strong.

Dr. Greene, 35 West 14th St., New York City, is the most successful physician in the world in curing all forms of female weakness, nervous complaints and nervous diseases of women. His wonderful discovery, Dr. Greene's Nervura blood and nerve remedy, the result of years of investigation and practice, is the greatest health ever and boon for womanhood the world has ever known. It is not a makeshift preparation put up by an irresponsible party, but is a scientific physician's prescription to effect a sure and positive cure, and it will certainly cure you.

Dr. Greene invites all women who have need of a physician's sympathy, advice and counsel, to write to him freely, fully and confidentially about their cases. There will be no charge whatever for many letters, such consultation and advice by letter or personally, and Dr. Greene will tell you just what to do to be cured.

Mrs. Ada McIntosh, Latham Falls, Me., writes:

I take pleasure in sending my thanks for that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. I had been suffering with female weakness and nervous prostration caused by an operation. I was obliged to leave my home for two years ago (operation of the cervix) which left me in a terrible condition. I was in bed ten weeks with nervous prostration and could not get up. I gradually grew worse until I was on the verge of insanity. I tried Dr. Greene's Nervura blood and nerve remedy and decided I would give it a trial, and before I had taken the first bottle I felt a change for the better, and after taking two I felt like a new person. I was able to get up and do my work. My nerves were so shattered, but have improved so that I now do work for four in the family. I think Dr. Greene's Nervura is the most wonderful medicine in the world, and have advised my friends who feel sick to try it by all means, as in my belief it is sure to cure.

"Housework is hard work without Gold Dust"

WASHING WOOLEN BLANKETS

The theory now is, that blankets must be washed instead of dry-cleaned to be healthy. To have your blankets as soft as new, make a soapy suds in half a tub of warm water by using one-half cup of

Gold Dust Washing Powder

and soak a blanket in it for half an hour; then simply move it around and rub the suds all over; rinse in warm water of the same temperature as the one in which you wash it, hang up in a warm place or sunbath outdoors all day and see what a soft, wool blanket you will have.

MASON STIRS THE SENATE

Threatens Continued Agitation of His Boer Resolution.

REBUKE FOR A CONSUL

British Official at New Orleans May Be Sent Home—Illinois Representative Also Makes Inquiries About the Hague Treaty—Proceedings of the Congress.

Washington, Jan. 29.—Senator Mason has raised three questions in the senate which will continue to be agitated. One is in relation to criticism of United States senators by a British consul at New Orleans, another was the status of The Hague arbitration treaty and the third was Mr. Mason's resolution of sympathy for the Boers.

The junior senator from Illinois has started out to make trouble, and he has succeeded, especially on the first point. Senators do not enjoy having foreign officials accredited to this country criticize either the official act or the official expressions of any member of the government. The British consul at New Orleans, if he has been correctly reported, or if he has been criticizing speeches made by United States senators, will receive his exequatur from the state department. Mr. Mason did not ask that any official recognition should be taken of the British consul, but other senators among them Lodge and Hoar of Massachusetts, say the matter should be reported to the state department for appropriate action.

British Consul Arraigned.

The subject was brought up by Mr. Mason sending to the clerk's desk to have read a newspaper statement attributed to the British consul at New Orleans, in which the American people are characterized as mercenary, and Mr. Mason himself as a mercenary.

Mr. Mason declared that English officials who were permitted to come to the United States as friends, and who made such unfriendly statements, only called attention to "the arrogance and cowardice and brutality of the English government." He did not care to refer the matter to the state department, as he could take care of himself "from that class of cattle."

Senator Mason's inquiry as to when the committee intended to report his

EUREKA BAKERY.

GEO. HOCKETT & SON. Rear of Post Office.

An Unprofessional Model.

The sun, declining on the coast of Norway, made the wide fjord shimmer like liquid gold below the purple mountains. Christine sat at the foot of the cliff dreaming—not that she was asleep, but lost in reverie. The sun made her long, braided hair shine like a halo as she rested her cheek on her hand and dreamed. Her thoughts were far away, and she did not notice that some one had quietly rowed his boat within a short distance of where she sat. He was evidently an artist, for at his feet in the boat lay an open portfolio.

He dropped his oars, entranced at the unexpected and lovely vision. The flower-like face of the girl, the quiet costume—a short brown woolen skirt, a chemise of snowy linen, a black velvet bodice and a red stocking cap on her gleaming hair.

What a study for his next exhibition! Sketching his pencil, he made a hasty sketch of the little figure, with the cliffs looming up behind, the placid water almost touching her feet. She was surely a fairy of this land of romance, and presently the little elves would come to seek her. He could almost fancy them whispering to her now. Having finished the sketch, he gently rowed ashore.

Christine started with surprise as he leaped from the boat, but was reassured by the respectful manner in which he addressed her.

"I beg your pardon for intruding," said he, politely. "I had no idea there was any one in this region but myself. But will you kindly tell me the name of this place? It is marvellously beautiful."

And he sat down on a rock nearby.

"That is the Naarvord," she replied, and her eyes seemed fathoms deep as she spoke. "It is very beautiful, but a sad thing happened here."

"What was that? Do tell me," he asked, at the same time making mental notes of the lovely model he intended to reproduce on the other side of the sea.

"Many years ago," she went on, "a beautiful maiden lived on this mountain, and she sang so sweetly in the evening that all were charmed who listened to her. She was merry and happy, and her songs were gay as any bird's. But one day a stranger came in his boat—even as you come now—and, hearing the maiden sing as she sat here, he peeped her voice and said many things which pleased her. And after that they met here every evening during the summer time, and she was so happy she sang only for love of him. Though he lived in a distant country, she consented to become his bride. He promised to come for her when the leaves fell in the forest, but he did not come. The snow covered the mountains and the spring melted it, and then she knew she would see him no more. And her sad songs seemed like a moan as the wind carried them out to sea. Till one night a terrible storm swept the fjord and the girl did not come home. They found her there by the rock in the morning, where the waves had washed her body on the sand. And some say that on stormy nights you can hear her moaning by the cliffs, for she still mourns for the lover who promised to come. I never sit here at sunset but I think of her."

"Thank you," responded the artist. "I didn't know the story, but I can quite believe it of such a place as this. Do you live on the mountain?" And he noted the small feet and the delicate hands, which did not look as if they had ever done much work.

"Yes; I have lived here with grandfather since I was a little child. My parents were lost at sea. Would you like to see grandfather?" she asked, without a shadow of mistrust or apprehension. "He is very fond of company."

The artist readily assenting, Christine led him through the gorge to the other side of the mountain, where a fine old house stood in its shelter.

The old sailor looked a true descendant of the vikings as he sat on the porch, from where he could view the fjord in all its changing majesty.

He welcomed the traveler royally, and a servant brought him a draft of wine and some curious confections. Christine sat at her grandfather's feet listening to his wonderful tales of the northern seas, and the moon was high in the heavens when the artist departed, after promising the old man to return the next day for a sail in his queer looking vessel.

The rooms of the art club were thronged with artists, connoisseurs, patrons and men of wealth and fashion.

In one corner a butterfly group of girls hovered around a canvas marked "284."

"Oh, what is that?" "Did you ever see anything so charming?" "What lovely hair!" "What is it called?"

The catalogue answered the question: "An Evening Dream in Norway," by O. B.

Suddenly there was a hush, and the admiring group turned to look at a fair, golden haired girl who had just entered talking to a distinguished looking man. Though dressed in the prevailing fashion, there could be no mistaking her. She was undoubtedly the original of the Norwegian maiden in "284."

Not without result had this man with the keen sense of romance spent two months amid the enchanting atmosphere of the Norwegian lakes and mountains in company with the grand old Norseman and his lovely granddaughter. Unlike the lover in the ancient legend, he did not promise to return for his bride, but won and married her on the very mountain where at sunset he had first seen her dreaming by the fjord and carried her off to his western home to inspire him in his art forever.—Boston Post.

Varlety in Cocktails.

"How many kinds of cocktails are there, do you suppose?" said the bartender. "One man said six, another ten, but the bartender said no."

"How many, then?" they asked. "I don't know," said the bartender. "I have only been in the business ten years, but there are very many. Some years ago when I was in Frisco a man told me I couldn't make one dozen different cocktails. I told him I could make four times as many. Finally we made a bet. He used to come in every morning, and I guaranteed that I would make a different cocktail every morning for 40 days. If I failed, I was to foot the bill; otherwise he was to pay. I got through all right. For 40 days I made a different cocktail for him every morning, and finally I threw in eight more just as a flourish."

"There was not, of course, much difference between them, but quite enough for an experienced man to be able to distinguish them, and so I won. The truth is there is no limit to the varieties of cocktail, and I should not be surprised to see an experienced man reach the hundred mark."—New York Sun.

FOUND DEAD IN A BATHTUB.

Professor Leflamboy's Case Mystified.

Grand Rapids, Mich., Jan. 30.—Prof. A. Leflamboy, magnetic healer, was found dead in a bathtub filled with steaming hot water, and his brother, George Leflamboy, was lying on the floor of the bathroom unconscious. The professor was nude, and had been in the hot water so long that his body was parboiled. The flesh came from the bones as the body was lifted from the tub. George was dressed, and until he recovers sufficiently to tell what happened, the case will continue a mystery.

Prof. Leflamboy gave "magnetic masseur" treatment, and claimed that his sufferer by his patients were absorbed by him. He took frequent baths and often stayed in the water for hours at a time. One theory is that he went to sleep in the bathtub, leaving the heater burning, and the water was so hot when he awoke that it made him helpless, or that he slipped down in the tub until his face was covered. There were no signs of a struggle. The body had been in the water for ten hours.

The condition of the brother cannot be accounted for, as there was no smell of escaping gas in the bathroom when he was found.

Farm Raised Its Own Mortgage.

A queer story is told by a Lincoln (Neb.) paper of how misfortune of its own accord turned into good luck for a Nebraska farmer. He was a man from Missouri, who had invested his all in a big wheat field in Buffalo county, and then by means of a mortgage on his land he raised \$700 with which to raise wheat. It happened to be a poor year for wheat, and the stand was not very good. Concluding that it wasn't worth harvesting, he pulled up his stakes and went back to Missouri, leaving the farm to fight the mortgage all by itself. The wheat ripened, fell down and deposited the seed in the soil again. Next spring the wheat began to grow lustily. Some of the neighbors were honest enough to write about it down to the fugitive in Missouri, and he got interested enough to come back and take a look. Then he stopped and harvested his voluntary crop. He sold it for enough to pay off the mortgage and the rest of his debts and had a tidy little surplus over, with which he moved his family back, and now declares there is no state like Nebraska.

A Detailed Map of Rock County . . .

Work is now in progress on a new wall map for Rock County. In size it will be 42x47 inches, mounted on cloth, and each township (of which there are twenty) will be neatly colored. The county will be represented on the scale of 1 1/4 inches to the mile and will show the location of streams, lakes, cities, villages, school houses, churches, town houses and residences, public roads and railroads. It will also locate the farms, giving the number of acres and the name of the present owners wherever it is possible to do so. As fast as the drawings of the townships are completed they are verified so that the map will be as nearly correct as possible. The work will be of great value to business and professional men and farmers, and should find place in every school house in the county. The last wall map of the county was made a great many years ago, so that this new one will fill a long felt want.

The Price is \$6.00.

Only enough of the Maps will be printed to fill orders. This fact should be borne in mind by those interested. Agents will begin the work of canvassing at once; orders may be given them and may also be sent to us in care of The Gazette office. If you will send in your name a representative will call and give more information if necessary.
